CAREER OBJECTIVE

To develop a successful career in graphic and web design by creating attractive, functional, and user-friendly designs and websites. I aim to improve my technical skills, gain practical experience, and contribute creatively to projects and organizations.

SKILLS

- Graphic design and visual creativity
- Web design using HTML and CSS
- Basic website development and editing
- Logo and brand design
- Image editing and digital content creation
- Basic computer and internet skills
- Problem-solving and attention to detail
- Communication, teamwork, and willingness to learn

WORK EXPERIENCE

Freelance Graphic & Web Design

- Designed and edited graphics for personal and small-business projects.
- Created and customized basic websites using HTML and CSS.
- Worked on logos, website layouts, promotional graphics, and digital content.
- Communicated with clients to understand design needs and make requested changes.

HOBBIES & INTERESTS

Graphic design, web development, learning new technology, creative projects, photography and image editing, reading, and exploring new digital tools.
